Wake Forest Commencement.

The commencement of Wake Forest
college will take place 21-25 of May
inclusive. Justice Walter A. Mont-
gomery, of the supreme court, will
address the law class; President E. B.
Andrews, of Brown University, will
deliver the literary address and Rev.
W. R. L. Smith, D. D., of Richmond,
Va., will preach the sermon.

The exercises of commencement day
will begin promptly at 10:30 o'clock
Thursday morning. The orators se-
lected for the occasion are Messrs. G.
M. Beavers, C. S. Burgess, A. C. Croe,
H. M. Evans, J. Hamilton, S. J. Hon-
eycutt, T. N. Johnson and J. D. Lar-
kins.

Soldiers Passing Through.

The twelfth regiment of New York
volunteers, which has been in camp at
Peekskill, N. Y., for the past two
weeks, were mustered in last Friday,
and today they passed through Greens-
boro enroute to Chicamauga to go in-
to camp there. There were several train
loads of them and they were an un-
usually fine looking set of men, most of
them above the average height and
well built. They were in good spirits.

More New Dwellings.

There is something like a building
boom in southeast Greensboro. On
McAdoo avenue Mr. Donnell has just
completed two new dwellings and is
now building another. Mr. W. C.
Bain is putting up a nice dwelling on
Pearson street, next to Mr. T. T.
Brooks' and on the same street work
has been begun on dwellings by Mr.
J. A. Clifton and another gentleman,
whose name we have forgotten. The
latter is next door to Mr. Turner
Rankin's.

Another New Building.

This is the growing season. An-
other new building, to be used as a
machine shop by J. M. Clymer, is to
be erected at once on the south side of
Lewis street, next to John Lewis' shop.
Let the good work continue. Busi-
ness enterprises of this kind are the
ones which form the backbone of a
city. All such should be encouraged.

The Graduating Exercises.

The graduating exercises of the
graded schools of this city will take
place Saturday morning at 11:30. The
annual address will be delivered by
Bishop Rondthaler of Salem. The
public are most cordially invited to
attend these exercises. The address is
looked forward to with much interest,
as Bishop Rondthaler is a particularly
entertaining and forceful speaker and
always handles his subject in a lucid
manner.

Trustees Meeting.

At the meeting of the board of trust-
ees of Centenary church last night it
was decided to sell the lot on Vance
street belonging to the church also a
large number of chairs which are not
needed now for use in the church since
the new seats were put in. The lot is
level and is a splendid building site
of one hundred feet front and one
hundred and fifty feet deep.

Populist Convention.

According to the Raleigh papers the
populist convention of yesterday and
last night was a warm number. The
contesting factions led by Butler and
Skinner respectively had a true popu-
list cat-and-dog time. Butler won in
the organization of the convention and
was evidently on top. What action
will be taken with reference to fusion
remains to be seen.

Military Appointments.

The governor yesterday completed
the appointment of staff officers for
the second regiment, as follows:
John W. Cotten, of Tarboro, major
of second battalion.
Dr. R. K. Stockard, of Burlington,
chief surgeon.
Rev. J. P. Everton, of Dare county,
chaplain.
R. B. Davis, of Wilmington, quarter
master.—News and Observer.

Entertainment Postponed.

On account of the change in the time
of holding the graduating exercises at
the Lindsay street school the enter-
tainment at the Asheboro street School
will be given Thursday and Friday
evenings instead of Wednesday and
Thursday. The hall will comfortably
seat 250 people. Only this number of
tickets will be sold.

Judge Hoke Re-Nominated.

Shelby, N. C., May 17—The Judi-
cial convention today nominated W.
A. Hoke for judge of the Eleventh
Judicial District, and James L. Webb
solicitor, by acclamation. Thomas
Jerome from Union county, was chair-
man of the convention.

FLEET REPORTED OFF SAN JUAN.

The Charleston Sails--Heavy Cannon-
ading Heard--Merritt Wins--New
Cabinet--A Reported Fight.

By Wire to THE TELEGRAM.

Washington, May 18—It is now pos-
itively stated that the Cuban army of
invasion has been raised to 100,000 men.
It is also asserted that the administra-
tion has firmly decided to send the
army to Cuba without waiting for
Sampson and Schley to demolish the
Spanish fleet. The dilatory tactics of
the Spanish squadron is thought to be
intended to delay action until the
rainy season. Hence the decision for
an immediate invasion.

A BATTLE REPORTED.

London, May 18—A special dispatch
has been received here reporting a
battle off Colbarien, where it is as-
serted a landing party was beaten
back. The dispatch receives much
credence.

CHARLESTON SAILS.

San Francisco, May 18—The Charles-
ton which has been lying at Mare Is-
land navy yard taking on provisions
and ammunition moved from that
place early this morning preparatory
to sailing to the relief of Dewey. She
is heavily loaded.

AT SAN JUAN.

Washington, May 18—A semi-official
report has been received saying that
the Spanish fleet has appeared off
San Juan de Porto Rico.

HEARD HEAVY CANNONADING.

Port-au-Prince, May 18—The com-
mandant of the island of Tortuga off
the north coast of Hayti reports that
he heard heavy cannonading to the
eastward of Tortuga. A heavy fog
prevented him from seeing anything.

A DENIAL FROM MILES.

Washington, May 18—General Miles
today denied the report that it is
the intention of President McKinley to
issue an immediate call for more volun-
teers.

MERRITT WINS HIS FIGHT.

Washington, May 18—It is an-
nounced today that General Merritt
wins in his fight for a larger force for
the Philippine expedition. It is now
stated that the first installment will
be composed of 11,000 men to be followed
later by 14,000 more.

THE NEW CABINET.

Madrid, May 18—A new Spanish
cabinet has been formed as follows:
President, Sagasta; foreign affairs,
Leon F. Costillo; war, Lieut. General
Correa; marine, Quenon; finance,
Lopez Puigcerver; interior, F. R.
Capdepon; public instruction, Goidard.
Premier Sagasta submits the names of
the ministers to the queen regent for
her approval today. The cabinet of-
ficers will be sworn in this evening.
The premier acts as foreign minister,
pending the arrival of Costillo.

ON THE DODGE.

Washington, May 18—It is unoffi-
cially reported here that the Spanish
fleet is heading for Cienfuegos.

ROOSEVELT'S ROUGH RIDERS.

Washington, May 18—It is rumored
here today that Roosevelt's Rough
Riders are to be ordered to Cuba im-
mediately. The rumor is generally
believed, though there is no means at
hand of verifying the report.

Gloom in Washington.

Washington, May 17—The situation
looks more serious today from an
American point of view. The fear is
expressed that should Carver suc-
ceed in increasing his fleet it will equal
either one of ours. Naval officers,
however, refuse to entertain any doubt
as to the result of a naval engage-
ment, but these assurances do not allay
anxiety.

Everything has come to a standstill,
while every one waits for news from
Sampson. There are more wives and
daughters in the country and their depres-
sion, together with the general anxie-
ty concerning the squadrons, hangs
like an oppressive cloud over the en-
tire city. The war board is assisting
the movements of the army along the
line.

Ordered to Iloilo.

Hong Kong, May 17—The British
second class Pique has been ordered
to the island of Iloilo, of the Philip-
pine group for the protection of the
merchants whose lives and property
are threatened by the insurgents.

Was Dr. Hoss Elected Too?

In the election for bishops at the
general conference yesterday, it was
the intention of the conference to elect
only two new bishops. Bishop Wilson,
who was presiding, announced that
there were 255 votes and 128 necessary
to a choice. On the second ballot Dr.
Candler received 148, Dr. Morrison,
140 and Dr. Hoss 129. Dr. Hoss' friends
claim that he is elected too, and it is
thought that a motion will be
made today providing for three new
bishops instead of two. Dr. John C.
Kilgo was the next highest man, hav-
ing received on the first ballot 13
votes and on the second 68 votes.

Bishops Candler and Morrison.

Below we give a short sketch of the
two new bishops elected by the general
conference at Baltimore yesterday:

Dr. Candler is 41 years old and was
born in Georgia. He graduated from
Emory College when 19 years of age
and entered the North Georgia Con-
ference. At the age of 23 he was ap-
pointed a presiding elder. He has been
a delegate to every General confer-
ence since 1882. Since 1888 he has been
president of Emory college, having
previously been one of the editors of
the Nashville Christian Advocate. Dr.
Candler is noted as a pulpit orator.

Rev. Dr. H. C. Morrison is 58 years
of age. He is a native of Tennessee.
He has been missionary secretary of
the church for the past eight years. He
has succeeded in liquidating the mis-
sionary debt of \$140,000, which has
placed him high in the estimation of
his fellow churchmen. He was edu-
cated at the Wesleyan University and
at Emory and Henry college. He en-
tered the Holston conference in 1869,
and has served charges at Knoxville,
Tenn., San Francisco, Cal., and
Asheville, N. C. He was editor of the
Christian Advocate for eight years. He
has been a professor in Vanderbilt
University and in Martha Washington
and Emory and Henry colleges.

Papers Were Smuggled to Dewey.

Cincinnati, May 17—Mr. Wm. Do-
herty, an ornithologist and entomol-
ogist, has just returned from the Phil-
ippine Islands via Hong Kong and
San Francisco. He succeeded in pass-
ing the Spanish customs officials at
Manila with complete plans of the
city, the harbor, the fortifications and
minute details of their armament, from
Consul General Williams to Admiral
George Dewey. The plans and draw-
ings were concealed in a newly-laun-
dried shirt, which was folded, placed
up and banded in the usual style and
put with other clothing in his trunk.
Arriving at Hong Kong early in April,
he delivered the supremely important
papers to Admiral Dewey on the
Olympia.

MODERN WARFARE.

The American naval commanders should not be led by Dewey's easy victory into too great contempt of Spanish ships. There are plenty of French and German artillerymen who understand the art of shooting straight and who are willing enough to place themselves at the service of Spain, just as they have placed themselves at the service of Japan, China or any other country willing to pay them for their services. American gunners will of course hold their own but there is a great difference in tactics necessary when dealing with a German who can hit a ship and a Spaniard who can hit the face of the Atlantic ocean. The charge is openly made that Germany has supplied guns and gunners for the fleet now forming at Cadiz. And when it is all over there will be a few German gunners the less.

After all due allowances have been made it appears, somehow, that the powers in charge at Washington are not very well supplied with that quality that makes things "go."

It turns out that the dispatch which it was alleged the French cable authorities held at Martinique for 24 hours was sent by a British cable and the delay resulted from a rush of business and the "first come first served" rule. It is pleasant to know that the French authorities are not guilty of such an offense.

With the retiring from the Spanish cabinet of Senor Moret goes the only man in it who could see an inch beyond his nose, with the exception of Sagasta who has always been a trimmer. The new cabinet it is said will be same as the old with the exception of three men—Moret, Puigcerver and Xiquena. If it is to be aggressive a new premier will have to be found.

Sometime since attention was called in this column to the proposed organization of a State Historical Society in Charlotte on the Twentieth of May. We note with pleasure that the matter is taking definite shape. The Observer says of it:

A state historical society is to be organized here on the 20th. Among the leaders in such organization are Maj. Graham Davies and Justice Walter Clark. The latter will be here on that day. Maj. Davies will be prevented by illness from attending, we regret to learn. There is such a society in Virginia with a membership of 700 and one in South Carolina of 400. North Carolina should not be behind her sister states. The University and all the state colleges endorse the movement and will be represented, we learn, by members from their faculties at the organization of the society. The Observer will be more than glad to lend its cordial support to this worthy effort.

Greensboro should be represented in the charter membership of this society. Some history was made here about and more should be.

Much has been said of recent years about what rapid fire guns, high explosives, etc, would do in the way of revolutionizing warfare. Most people

had been led to suppose that a company or so of men would be sent out with a battery of gatlings and maxims and a dynamite gun or two and would wait till the enemy could be enticed into the open and then his armies would be mowed down in a few minutes and the war would be over. The fighting thus far shows nothing of the kind. The loss of life has not been heavier than it would have been under similar conditions thirty-five years ago. The main dependence of the commander is still long rows of men, each armed with a gun, just as was the case 125 years ago, and though the guns will shoot a couple of miles nobody will be killed when the soldier follows the old injunction to "aim at a star" as he will have to do to make his gun carry long distances. There will doubtless still be found some work for the bayonet even. There has been a good deal of nonsense talked about the "destructiveness of modern warfare" as though ancient warfare were a holiday. There has been no warfare more bloody, nor will be, than the warfare where the weapons were battle axes, swords and lances; there have been no victories more bloody than those of Hannibal and Caesar. It is more pleasant and less dangerous to be punctured with a Krag-Jorgensen bullet at 400 yards than to be spit with a spear in the hands of a man who will twist it around in the wound after he has stuck it through you. It is even probable that the present conflict will show that the destructiveness of the immense breech-loading cannon has been overdrawn. In the case of our own men may it prove so.

THREE CLASSES OF CRUISERS.

All Nations Do Not Classify Ships in the Same Way.

A good deal of trouble is experienced by some who do not have access to the desired information in differentiating the three classes of cruisers, the armored, protected and unprotected. The cruiser is a swift ship whose chief business is to convoy merchantmen, carry dispatches and scout for the battleships, prey upon the enemy's commerce and attack ships of her own class. The cruiser usually has powerful engines and is fitted for making head way in heavy seas.

The armored cruiser is one with its sides protected by armor plates. It is the outgrowth of the protected cruiser and is expected to do heavier fighting. The New York is an example.

The protected cruiser is so called because it has a steel deck sloping from the center to the sides and usually from 1 to 3 inches thick which protects the vitals of the ship from the enemy's shots. The Cincinnati is a protected cruiser. The unprotected cruiser has neither a heavy steel deck nor side armor and is usually smaller than either of the other classes. The Detroit is an example of the unprotected class of cruisers. It should be noted however that different nations classify ships differently. The above applies to America. Thus the Spanish ships Vizcaya, Maria Theresa and Almirante Oquendo are called cruisers whereas we should rate them as second class battleships.

General News in a Nutshell.

Wellington, Kansas, schoolboys organized into two armies the other day and fought a mimic battle with mud balls. The engagement waxed so hot that stones were finally substituted for the more harmless missiles, and four "Spaniards" were seriously injured. The American forces retired in triumph, but when the news of the results of the battle reached their homes the victors met with serious reverses at parental hands.

The hatching of fish eggs in China is accomplished by the use of unsuspecting hens. The spawn is sealed in an egg shell and placed under the hen for a few days, at the end of which time the contents of the shell are emptied into a shallow pool. There they can bask in the sunshine until the minnows are strong enough to be turned into a lake or river.

According to a recently published interview with an American who left Havana after the departure of General Lee the standing toast in that city just before the outbreak of the war was: "To the patriot who blew up the Maine!"

Where is the congressional orator who said that Spain could be conquered in fifteen minutes? And where is his more conservative fellow-member who prophesied that the war would last but 15 days?

The Delta Light House (Greenville, Miss.) delicately reminds its readers of the uncertainty of life as follows: "Why not make arrangements for a nice casket and coffin. Mr. J. W. Head, of this city. You will sure need them."

The richest deposit of aluminum in the world has just been discovered near Bowling Green, Ky. An analysis of the clay by the government assayer at St. Louis, Mo., showed the proportion of aluminum contained therein to be 50 per cent.

To Bring About a Fight.

Washington, May 17—The intention of the administration to expedite the military occupation of Cuba is apparently to be coincident with a rearrangement of the plan of naval campaign, which will increase the efficiency of the sea forces and insure with greater certainty a speedier engagement with the Spanish fleet.

Your correspondent was told today that the administration had decided to ignore the Spanish fleet in the West Indies and make a vigorous campaign on land and water.

Sampson's armor-clad division and Schley's ships are rapidly converging on Watson's blockade force.

A junction can be effected in a few days, and with such a fighting force in Cuban waters there is no need of other delay.

The gathering of these squadrons in the West Indies will result in something more important than expediting a military campaign.

MUST GIVE SPAIN NO COAL.

A Protest to the Netherlands About the Fleet at Curacao.

Washington, May 17.—The coaling of the Spanish fleet at Curacao was made the subject of a protest this morning addressed to the Netherlands government, and instructions were sent to our consul at Curacao to make representations to the same effect.

The minister of the Netherlands was at the State Department this morning, by request, and during his protracted conference with Secretary Long all other visitors or callers were denied admission.

The subject under discussion was the landing of the Spanish fleet at Curacao, where it is reported that the Spaniards took on coal, food supplies and ammunition.

it means that we are authorized by
the proprietors to sell these remedies
on a positive guarantee, that if pur-
chaser is not satisfied with results, we
will refund the purchase price. These
medicines have been sold on this guar-
antee for many years and there could

The Spanish Fleet.

Curacao, Dutch West Indies, May
17.—The Spanish fleet is now supposed
to be off the coast of Venezuela, or
off the coast of Colombia. Only a
portion of the fleet was allowed to
enter this harbor to obtain provisions,
cattle and coal, which were purchased
here.

Confirmation was obtained of the
report that the Spaniards left one of
their torpedo gunboats at Fort de
France, Island of Martinique.

Reconsider Neutrality.

St. Petersburg, May 17.—The No-
voye Vremya, commenting upon the
recent speech at Birmingham of Jo-
seph Chamberlain, the British secre-
tary of state for the colonies, says:
"We doubt whether the United States
desires an alliance, and whether it
would be agreeable to the other pow-
ers that the United States, after west-
ing the Philippine Islands from Spain,
should afterwards sell them to Great
Britain." The paper says it considers
such an intention "sufficient to induce
the powers to reconsider their neutral-
ity during the present war."

Worried Over the Philippines.

London, May 17.—The Standard's
St. Petersburg correspondent says that
Japan intends to protest vigorously
against the anticipated American seizure
of the Philippine Islands. Japan
seeks countenance in such a protest
from Russia, with whom she has al-
ready communicated on the subject.

BRIEF LOCAL MATTERS.

T. K. Brunner, of Raleigh, was in the city today.

Hon. A. M. Scales went to Gibsonville this morning.

Judge Bynum went off on the Raleigh train this morning.

Furnished rooms wanted for man and wife. See penny ads.

Mr. and Mrs. Neil Ellington and daughter went to Wentworth this morning.

There is a lot of interesting matter in this paper today under the head of "Carolina Locals."

Don't forget the entertainment at South Greensboro graded school Thursday and Friday nights.

Join the procession boys. Matthews, Chisholm & Stroud are calling for volunteers, read their ad in this issue.

Rev. Dr. W. L. Grissom left on the noon train for Baltimore to visit the general conference now in session there.

James R. Pearce, the hustling and rustling auctioneer, has something to say in the penny ad column today. Read it.

Lindau, the hustling and up-to-date grocer and cigar man has put in a new and handsome cigar case—and cigars to fill it.

Miss Etta Watkins, of Ramseur, daughter of W. H. Watkins, of the Ramseur Manufacturing Company, is spending the day at G. F. College on her way to Charlotte.

Instead of tonight and tomorrow night the entertainment at Asheboro street graded school will be held Thursday and Friday night. See notice of postponement elsewhere.

The property sold at auction by Wharton & McAllister last Monday went at a sacrifice, nevertheless they advertise another sale for Monday, May 20th. See their ad on first page.

Rev. R. B. John, of Newbern, was in the city today and left at noon for Baltimore to attend general conference. He came down this morning from Mocksville, where on yesterday he performed the ceremony at the marriage of his brother Maxey John, of Laurinburg to Miss Bell, of Mocksville.

The Detective Detected Some More.

Mr. John E. Remond, the "Cincinnati \$2.50 tin star detective," as he has been well and sufficiently dubbed, was detected afresh this morning. He swore out warrants for some of the witnesses against him charging them with keeping a disorderly house. The case came up before Justices Eekle and Pritchett this morning. Remond failed to establish his case and the costs were added to his sum of liabilities. Not only that but it was brought out in the evidence that Mr. Remond was wont to have masked batteries on his person. For this offense a warrant was issued by the justice and as the detective's watch and other effects were already "up" that much-ferreting gentleman was provided with a birth in the county hotel. He was allowed to keep the tin star for consolation.

The G. F. C. Essayists.

From the essays submitted by the members of the senior class of Greensboro Female College, the following have been selected by the committee representing the faculty to be read at the approaching commencement: Social Life in Athens in the Fifth Century B. C.; Miss Nora Hamlin, of Yadkinville, N. C.; Eli Washington Caruthers D. D.—The man and the author, Miss Pattie LeGrand, of Rockingham, N. C.; Life in America as Revealed by Her Novelists, Miss Alberta Blanche Ceapel, of Troy, N. C.

Doing Well.

The Telegram is pleased to learn that Mr. C. C. Townsend, who recently bought property and built a handsome brick store thereon in this city and opened up a first-class buggy, wagon and harness store, is doing well. We called on him last evening and found him well stocked with a pretty line of goods, and in the best of spirits over his prospects for doing a good business in Greensboro.

If There is a New Call.

The Adjutant General writes Captain Schenck that the only chance, apparent, for a new Greensboro company to get in the service is under the new call for volunteers in case it is made later. North Carolina would, of course, be called to furnish her quota and a new regiment would be formed. Captain Schenck is at present undecided what course to pursue.

MEETING WITH SUCCESS.

Historical Edition of Our Church Record—A Slight Error.

In our notice yesterday of the historical edition of Our Church Record we stated that the work was under the supervision of J. Norman Wills. He informs us that he is merely assisting in the preparation of the Greensboro feature, and in the advertising department, and the editor Rev. J. F. McCulloch, is in charge of the entire work. By-the-way Mr. Wills tells us that he is meeting with the most encouraging success in securing advertisements, all of our business men who have been approached, with very few exceptions, having contracted for space. He thinks that our business men have come to realize the value of patronizing their home papers, rather than to contribute to papers whose circulation is not among those people who are interested in Greensboro. Sometimes "fake" papers without so much as a name or a circulation.

A New Trial.

A new trial has been ordered by the Supreme court in the case of the A. H. Motley Co. and J. S. Cobb & Co., against the Finishing mill. A judgment was obtained by plaintiff in the Superior court of this county from which the defendant appealed with result as above stated.

The case was argued by Shaw & Scales and Z. V. Taylor for plaintiffs and by R. R. King and Chas. M. Stedman for defendant.

Some New Points About Dry Goods.

We think it a great mistake to assume that the people are not competent to judge of quality; for we have found the greater portion competent far more than they are given credit for, and are more astute in judgment than sellers often imagine.

But the safest and best plan to acquire a knowledge of quality in merchandise of all kinds is to settle upon some house, the utterances of which you have found to be trustworthy, and study its merchandise and its statements thereabout.

Knowing how far our influence has reached in so short a space of time in this regard, we can point to the education we have given the people in quality. We began our new business by providing quality, making it an object lesson. We tell the truth about quality; honest words about honest facts. We shall always maintain quality, showing that good merchandise is what the people want, what they expect, what they appreciate and what they will buy.

This is the policy we have laid down for this new business, to educate the people to tell quality; to tell it themselves and to advise others; and this season when there is, possibly, a stronger desire than ever to keep the expenses of living down to the lowest minimum, we see the fruits of our zealous endeavors more than compensative, for our new business is constantly increasing along the lines of valid values and vigorous bargain selling.

EDITORIAL.

We have had the cool wet spell in May. We may now expect the summer season to begin shortly, and to continue without interruption.

We do not think there is any reason for dreading the warm weather. There are a great many enjoyments peculiar to the spring and summer, without which life would be exceedingly monotonous. Picnics will soon be on hand.

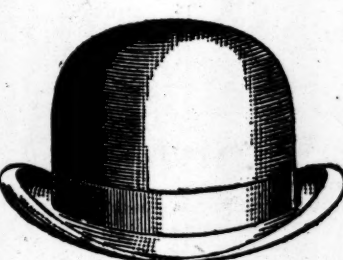

By the way, have you secured a BICYCLE? The roads will soon be in fine condition for riding. Comfort, pleasure and health demand that you take advantage of the low prices which we are now offering, and supply yourself with a wheel. The Crawford has made a record of which any wheel might well be proud. The price is exceedingly low.

If you wish an Ice Cream Freezer, a refrigerator, or any other summer specialties, do not forget that we are Headquarters.

ADVERTISEMENTS.

The above picture is very suggestive. What is more pleasant on the evening of a warm day, than to spray your grass and flowers; and if you should accidentally get the hose turned in the wrong direction, the victim will not suffer so keenly as this would indicate.
